

CyberSafe Tool for Schools

100 FREE places on our CyberSafe Tool For Schools Pilot!

According to our data*, 98% of Irish primary school principals are concerned about online safety. **CyberSafeKids** is here to help with our **CyberSafe Tool For Schools**. With the generous support of **Rethink Ireland**, we are able to offer it for FREE to the FIRST 100 schools that sign-up (*normal package price €349*).

How does it work?

- A small sample of your school community fills in a short online survey (5 - 9 people depending on size of school – 10 mins each)
- On completion you will get a school score and recommendations on how to further develop your approach to online safety
- You will be awarded a digital award badge of best practice
- You can book a free internet safety workshop or a 1:1 consultation

Although similar tools exist in the UK, this is the first tool of its kind in Ireland. By completing the **CyberSafe Tool For Schools**, you can get a clear snapshot of where your school stands on its online safety journey, measured against standards of best practice.
