

**CYBERSAFE
KIDS**

Class activity ideas

Try these fun activities designed for 3rd Class to 2nd Year pupils in your classroom and get them thinking laterally to mark CyberBreak in your school. Think about taking a break from online technology: **Disconnect to Reconnect!**

- 1** **Imagine a world without any technology:** Draw a picture or write a story about this world. What does it look like? How do people live? What do they do each day?
- 2** **Think of 30 new uses for a smartphone:** e.g. a drinks coaster, a dining table for ants, a reflector to send messages to ships at sea etc. You can do this as a class or individually! Think creatively.
- 3** **Design a fun schedule (for one day) for a family:** Remember: they have to spend the day without any online technology!
- 4** **Create a brand new offline game you can play (in a group 4 or team). You must:**
 - Decide clear rules
 - Design a way to win
 - Give it a Name
 - Make sure everyone can participate in the game
 - Make it safe
 - Test your game
 - Have fun playing it!
- 5** **Set up a debate in your class:** Agree on clear rules of how to give everyone a voice and how to exchange ideas respectfully. You should discuss this statement: "The online world has made our lives better."

With your parents or teachers permission, send us photos or videos of your games, drawings, stories or lists to enter our prize draw!

Please send your creations to office@cybersafekids.ie with the subject title: 'CyberBreak' or ask your teacher to post them on your school's social media channels using #cyberbreak22.
