

CYBERSAFE KIDS

ONLINE SAFETY AND DIGITAL WELLBEING SESSIONS

TALKS BROCHURE
2024-25

2024-25

**CYBERSAFE
KIDS**

We are pleased to offer both **online** and **face to face** training sessions to suit your organisation's individual needs, delivered by our panel of expert trainers.

Our adult **webinars** are secure and **interactive**. They are delivered via an online platform with a unique registration link and password.

“

Teacher Testimonial

Some of the content was eye-opening for my students. Really worthwhile.

*Class Teacher, Mary Help of
Christians GNS, Dublin*

”

OUR SESSIONS

FOR ADULTS

PARENTS, GUARDIANS, TEACHERS & YOUTH WORKERS

- Each session lasts 1 hour with opportunity for Q&A
- We offer a range of **different talks**

1 THE KIDS ARE (NOT) ALRIGHT

Our most popular session focusing on 8-12 year olds. It raises awareness of the main factors to consider around social media, gaming and the online world, explores what children are really doing online and offers practical advice and resources to help empower safer, more positive experiences.

2 TEENAGE KICKS, (SO) HARD TO BEAT

Aimed at those with or working with teenagers, this session aims to raise awareness of what young people are doing online, and the associated risks and safeguards. It provides information and guidance on platforms teenagers are using, digital literacy and wellbeing, and the inherent risks of being online.

3 TURN AND FACE THE STRANGE

This session takes a tour through the often baffling world of gaming by covering the positives and negatives of this multi-billion dollar industry, and looks at the burgeoning industry of AI and its results (e.g. Chat GPT). What questions do these raise for the future of the online world and the development of digital literacy skills?

CYBERSAFE KIDS

CyberSafeKids is Ireland's online safety charity. We aim to empower children parents and educators to navigate the online world in a safe and responsible manner. We deliver high quality, relevant and research-based sessions. The CyberSafeKids team has extensive experience in cybercrime analysis and investigation, cybersecurity, child psychology and education. Each member of our growing team of friendly and approachable trainers are highly trained, experienced and passionate about protecting children and young people to ensure they have positive experiences in the online world.
