

Pornography

Pornography is movies or photos showing people having sex. It is made for adults.

It is not real life and it is not how people behave in real life when they are in a relationship and should not be copied. It is not a good guide about sex.

The sex is pornography is being acted out and can sometimes be violent or show women being treated very badly.

Literacy
for Life

In real life people show respect for one another.

Be careful of websites that ask you for money or any personal information about yourself.

Do not share any videos or photos from these websites with other people.

Looking at pornography should always be done in private.
